

Technical Data
TBAcTM Solvent

Tert-Butyl Acetate
Solvent Maskant Recommendations

Introduction Lyondell Chemical Company has evaluated various fragrances to alter the odor of TBAc (t-butyl acetate). Some of the items evaluated will mask the odor while others will provide a fragrance to the TBAc. Please note that our tests did not look at formulated products, but only at the TBAc itself. The list below serves as a guide to help you select a product and, more importantly, a vendor who may be able to assist you with your formulation.

Recommended Company and Product

Company	Suggested Products
Chemia Corporation 11558 Rock Island Court Maryland Heights, MO 63043 1-800-726-1976	#2270 Fruity/Bubble Gum
Horizon Aromatics 201 East Elm Street Conshohocken, PA 19428 1-302-224-8305	OS Mask Vanilla #161157 OS Mask Cherry #161029
Carrubba Inc 70 Research Drive Milford, CT 06460 203-878-0605	Odor Mask C3409 Fruity/Citronella Odor Mask C3410 Chocolate/Cherry

Recommended starting point 0.10 wt%

Please be advised that odor masking is subjective and dependent upon other components in the formulation.

Before using a product sold by a company of the LyondellBasell family of companies, users should make their own independent determination that the product is suitable for the intended use and can be used safely and legally.

SELLER MAKES NO WARRANTY; EXPRESS OR IMPLIED (INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTY) OTHER THAN AS SEPARATELY AGREED TO BY THE PARTIES IN A CONTRACT.

This product(s) may not be used in:

- (i) any U.S. FDA Class I, Health Canada Class I, and/or European Union Class I medical devices, without prior notification to Seller for each specific product and application; or
- (ii) the manufacture of any of the following, without prior written approval by Seller for each specific product and application: U.S. FDA Class II Medical Devices; Health Canada Class II or Class III Medical Devices; European Union Class II Medical Devices; film, overwrap and/or product packaging that is considered a part or component of one of the aforementioned medical devices; packaging in direct contact with a pharmaceutical active ingredient and/or dosage form that is intended for inhalation, injection, intravenous, nasal, ophthalmic (eye), digestive, or topical (skin) administration; tobacco related products and applications, electronic cigarettes and similar devices, and pressure pipe or fittings that are considered a part or component of a nuclear reactor. Additionally, the product(s) may not be used in: (i) U.S. FDA Class III Medical Devices; Health Canada Class IV Medical Devices; European Class III Medical Devices; (ii) applications involving permanent implantation into the body; (iii) life-sustaining medical applications; and (iv) lead, asbestos or MTBE related applications. All references to U.S. FDA, Health Canada, and European Union regulations include another country's equivalent regulatory classification.

Users should review the applicable Safety Data Sheet before handling the product.
